Types of Floom Found in 2632-New York Giant Market Blend

2632-NEW YORK GIANT MARKET BLEND

A mixture of robust, hardy, free flowering giants of fine colors, with a good percentage of yellow, blotched and light grounds so popular and in such great demand around New York City. While this blend will not produce the variety of color, and flowers of as great substance as our New York Fancy Show Blend No. 2710, it is a very fine mixture for florists who need first class stock at a moderate price.

PANSY PLANTS

The wonderful root development in our plants, as shown in accompanying illustration, is caused by the natural character and condition of the soil at Clovena. STRONG STOCKY PLANTS FROM SEED BEDS ready in August, September and October at the following prices for OUR FOUR BLENDS. (See last cover page).

2632	New York Giant Market Blend, the best		per 1000		per 5000

Everything Known in Pansies

CROP 1909

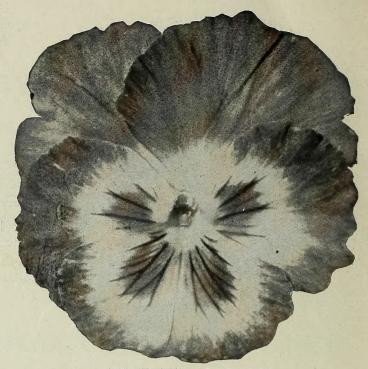

With thirty-three years experience in handling FLORISTS' SEEDS—17 of which have been devoted to Pansies, we claim to be headquarters for "EVERYTHING KNOWN IN PANSIES." Where can an assortment be obtained at home or abroad that will in any way equal the varieties and strains enumerated in the following pages?

All these years we have invited comparative and competitive tests both as to quality and variety. We do not claim to grow all our seeds—they are the product of some twenty-five Pansy specialists grown on special Pansy soils—they are the best that money can produce.

SPECIAL BLENDS OF CLOVENA PANSIES

Our seeds are grown and saved in separate colors and strains, and blended after harvest by set formulas, thus securing uniform mixtures that can be depended upon. Many new colors and markings have been added this season to each blend.

2632-NEW YORK GIANT MARKET BLEND

For Special Description See First Inside Cover

2709.-New Buttercup Blend

This is an extra mixture of yellow and golden flowering kinds. We guarantee that every plant will produce flowers with yellow or gold in them—from solid yellow in different shades to spotted, marbled, blotched and banded flowers in fire and gold.

2732—Giant Diana, See Sec. 2

2737-Prize Medal Blend

We offer this mixture for strictly fancy exhibition stock. It is made up from seed saved from named prize awarded plants of rare blotched kinds, penciled and marked in greatest perfection, so desirable, yet so difficult to develop. It does not contain any selves or as great a variety of colors as our Fancy Show Blend No. 2710, and is not

intended for ordinary bedding or florists' sale stock, except for those who have a critical trade and can get the proper prices. With ordinary care or with the masses, it will be a disappointment, but under special cultivation, mammoth, round flowers of surpassing substance and quality will be produced.
